

## Music Count Us In 2011

**Be part of the biggest gig in Australia on  
1 September at 9.30am**

Last year 500,000 students across Australia joined in singing the same song at the same time.

Why not be part of this fantastic event to raise awareness of the importance of music in *everyone's* education.

The Australian Society for Music Education is working with ***Music Count Us In***, a federally funded initiative to help raise the status of music education in schools, by arranging workshops to encourage generalist teachers to teach this year's song to their classes. Music specialists are, of course, most welcome to participate.

Downloadable and hard copy versions of this year's song and lyrics will be available as a classroom support kit, particularly pitched at the non-music generalist and will be available at the workshop. Depending on numbers, a workshop could be run **in your district**. Workshops will also count towards your WACOT Professional Learning tally.

To register your interest in a workshop to be held in your district contact
